

TransFollow ahead of the chain

TransFollow Android App

The TransFollow mobile application has been developed for users in warehouses, loading bays or on the road. With this app, the users can digitally sign the consignment note.

Use the TransFollow App to:

- Sign for pick up and delivery with Sign-on-Glass or TF-Approval (QR scanning)
- View the e-CMR and sign it digitally upon pick up and delivery.
- Realtime registration arrival and departure time.
- Adding attachments, pictures and
- Write comments or observations
- Manage your Returnable Transport Items flows
- Change language settings for easy communication
- Facilitate international transport and controls
