

TransFollow ahead of the chain

TransFollow Portal

All your shipments are visible in the TransFollow Portal where you can manage your e-CMRs. The result: fewer disruptions, lower costs and less administration.

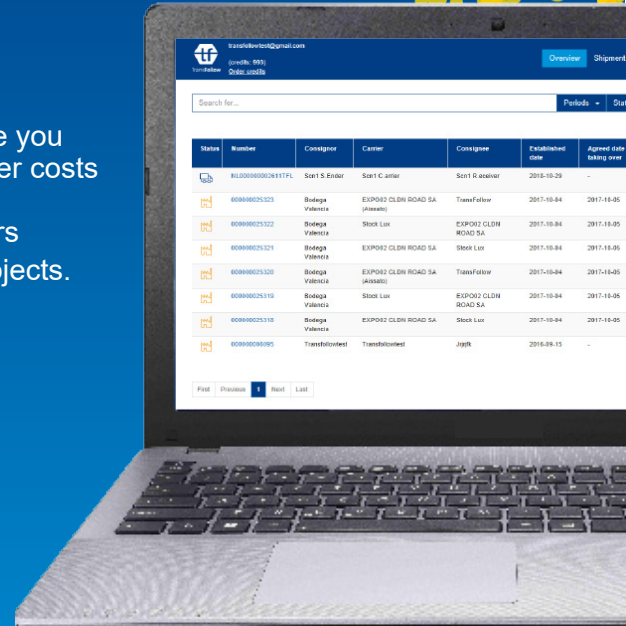

The portal is practical for managing your supply chain partners (shippers, carriers, recipients, vehicles) and your logistics projects.

Use the TransFollow Portal to:

- Visualise and search for consignment notes
- Make various selections for searches
- Track the status of e-CMRs
- View RTIs
- Check who signed the digital consignment note
- Manage attachments of consignment notes (photos and documents)
- (Automatically) archive e-CMRs (all consignment notes remain accessible).
